ASSIGNMENT

This Assignment is made by Arthur A. Vandebark of Portland, Oregon, Assignor, to OREGON HEALTH SCIENCES UNIVERSITY Assignee, having a place of business at 3181 Southwest Sam Jackson Park Road, Portland, Oregon 97201-3098.

WHEREAS, Assignor has invented new and useful METHODS OF IDENTIFYING AND MONITORING DISEASE-ASSOCIATED T CELLS for which an application for United States Letters Patent was filed on May 10, 2001, in the United States Patent and Trademark Office, bearing Serial No.09/853,830 and identified as Attorney Docket No. P-IM 4734.

WHEREAS, Assignor believes that Assignor is the original inventor of the invention disclosed and claimed in said application for Letters Patent; and

WHEREAS, the parties desire to have a recordable instrument assigning an undivided part interest in and to said invention, said application and any Letters Patent that may be granted for said invention in the United States and throughout the world;

WHEREAS, Assignor is simultaneously assigning an undivided part interest in and to said invention to THE GOVERNMENT OF THE UNITED STATES, d.b.a. THE DEPARTMENT OF VETERANS AFFAIRS, these two assignments constituting an assignment of the entirety of Assignor's right, title and interest in and to said invention;

NOW, THEREFORE, in accordance with the obligations to assign the invention and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor sells, assigns, and transfers to Assignee, an undivided part interest in and to said invention, said application and any Letters Patent that may be granted for said invention in the United States and throughout the world, including the right to file foreign applications directly in the name of the Assignee and to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties, or otherwise.

Assignor agrees that, upon request and without further compensation, but at no expense to Assignor, Assignor and Assignor's legal representatives and assigns will do all lawful acts, including the execution of papers and the giving of testimony, that may be necessary or desirable for obtaining,

sustaining, reissuing, or enforcing Letters Patent in the United States and throughout the world for said invention, and for perfecting, recording, or maintaining the title of Assignee, its successors and assigns, to said invention, said application, and any Letters Patent granted for said invention in the United States and throughout the world.

Assignor represents and warrants that Assignor has not granted and will not grant to others any rights inconsistent with the rights as stated herein.

Assignor authorizes and requests the Commissioner of Patents and Trademarks of the United States and of all foreign countries to issue any Letters Patent granted for said invention, whether on said application or on any subsequently filed divisional, continuation, continuation-in-part or reissue application, to Assignee, its successors and assigns, as the assignee of an undivided part interest in said invention.
